

dozop[®]

Quick and easy assembly
User's manual
Self-Contained

Includes: 4 struts, 4 casters, 4 joints

1. Divide the 2 struts from each other by gently pulling them apart at the ends.

1

2. Divide the joints from the struts by pushing them gently and then divide the 2 smaller struts from the bigger ones.

2

3. Assemble the 4 struts in a square.

3

4. Place the joints in the holes and gently push them locking the 4 struts together.

4

5. Place the casters in the holes on each joint.

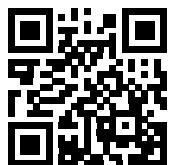

5

All parts click in each other by press fit, no tools required.
