

# Quick and easy assembly

## User's manual

### Self-Contained Mini

**Includes: 4 struts, 4 casters, 4 joints**

1. Divide the 2 struts from each other by gently pulling them apart at the ends.

2. Divide the joints from the struts by pushing them gently and then divide the 2 smaller struts from the bigger ones.

3. Assemble the 4 struts in a square.

1

2

4. Place the joints in the holes and gently push them locking the 4 struts together.

3

4

5. Place the casters in the holes on each joint.

All parts click in each other by press fit, no tools required.
